In Time Tec
07/2020 - 03/2021   *Bangalore*

Jr. Software Engineer Trainee
In Time Tec
01/2020 - 06/2020   *Bangalore*

PROJECTS

PAT(Pricing and Analytics Tool)
- PAT is part of HP S&M dashboard which mainly concentrates on analyzing the sales and sales performance of the HP devices. It uses ReactJS for the frontend and NodeJS for backend with aws lamda as a middleware. I was part of both frontend and backend as a senior resource with analysing the task to moving it to staging with end to end responsibility.

PS Services Portal
- PS Services Portal formerly known as HP DaaS Portal is a one stop solution for hardware and its services for IT companies. It is contractual based e-commerce website. It is setup on MERN Stack with S3 bucket for document storage and aws lamda for refreshers. I worked as a fullstack developer handling both frontend and backend of the application. I also worked on automation with cypress.

Cartos
- Cartos is a InTimeTec product with cloud-based, fleet design and asset utilization tool for Managed Print Service (MPS) providers. It allows MPS providers to optimize sites, gain more control on print services, and provide more efficient costs, maintenance, and resource utilization. It is a Angular and Node application in which I mainly worked as junior backend side of the project.

EDUCATION

BE in Electronics & Communication
PES College of Engineering, Mandya
06/2016 - 06/2020   *CGPA: 8.5*

Pre-University
Mahesh PU College, Mysuru
06/2014 - 02/2016   *Percentage: 80*

TECHNICAL SKILLS

React JS   Node JS   JavaScript   TypeScript
MongoDB   Redux   Express JS   GIT
Cypress   HTML   Responsive web design
CSS   DynamoDB

PERSONAL PROJECTS

Ride Sharing System
Node JS, Mongo DB, Express JS, EJS, HTML, CSS, Bootstrap

Storage Application
React JS, Mongo DB, Node JS

Queue System
Node JS, Mongo DB
